SUMMARY

Software engineer working across .NET and React/Next.js to ship full-stack, production-grade applications. Experienced in RESTful API design, database performance, cloud-backed storage, and leading delivery through code reviews, deployments, and mentoring.

SKILLS

- | | | |
|------------------------|----------------|-------------------|
| • .NET 8 | • Next.js | • AWS S3 |
| • ASP.NET Core Web API | • TypeScript | • GitHub |
| • Entity Framework | • HTML5 | • GitLab |
| • C# | • CSS | • Swagger |
| • Microservices | • Tailwind CSS | • Postman |
| • RESTful APIs | • Ant Design | • API Integration |
| • Node.js | • MySQL | |
| • React.js | • MongoDB | |

PROJECTS

Patient Diet Order Management System (PDOMS)

- Led backend development and enhancement of the Patient Diet Order Management System.
- Developed RESTful APIs for Orders, Tray Slip, Reports, Facility Configuration, and Language Management.
- Implemented multilingual language configuration and translation support.
- Implemented order creation, update, cancellation, bed change, and diet change workflows.
- Developed tray slip preview, bulk PDF generation, and QR code integration.
- Built production plan and order summary reports with PDF and Excel export.
- Integrated AWS S3 for PDF storage and retrieval.
- Optimized API performance and SQL queries.
- Implemented tenant-based data isolation and role-based authorization.
- Developed production plan, waiter, ward, session, and diet-wise reports with PDF/Excel export.
- Implemented scheduler and notification services for automated processing.
- Performed code reviews, deployment support, bug fixing, and mentoring.

Hindu Endowment Board (React JS)

- Led the implementation of an online booking system for events, services, and hall reservations under the Hindu Endowment Board (HEB).
- Integrated real-time slot booking, reservation, rescheduling, and cancellation features to enhance user convenience.
- Designed user-friendly interfaces for seamless web and mobile booking experiences.
- Ensured compliance with security standards and data protection regulations for secure transactions.
- Developed KIOSK integration to facilitate walk-in bookings and self-service operations within temples.
- Developing POS (Point of Sale) integration for in-person payments and transaction synchronization with the booking system.

NMS – Netkathir Management Service (.NET & React JS)

- Developed and maintained NMS, an application used for managing comprehensive employee details and administrative functions.
- Implemented a leave management system enabling employees to submit leave requests, which managers or administrators can approve or reject.
- Generated monthly leave reports for employees, providing clear insights into leave balances and patterns. Managed employee permission and late requests, streamlining the process for recording and approving such requests.
- Tracked annual holidays and generated annual leave reports, ensuring compliance with company policies and regulations.

- Handled employee salary details, including deductions, earnings, and payroll generation, ensuring accuracy and timeliness in payroll processing.
- Ensured data security and integrity, maintaining confidentiality and compliance with data protection standards.

KBS – Transport (.NET)

- Developed and maintained KBS, an application for managing vehicle details, maintenance schedules, and travel bookings.
- Implemented features for vehicle maintenance logging, bills, staff salary, and booking management.
- Generated reports on vehicle usage, maintenance history, and travel bookings.
- Ensured data accuracy and system reliability through regular updates and troubleshooting.
- Designed user-friendly interfaces to streamline navigation and improve user experience.

EDUCATION

Manankula Vinayagar Institute of Technology

B-Tech, Computer Science and Engineering — June 2019 to August 2023, Pondicherry

CGPA: 7.1

Sri Annai Rani Convent Higher Secondary School

Higher Secondary — June 2019, Pondicherry

Percentage: 64.1%

Sri Annai Rani Convent Higher Secondary School

Secondary — June 2017, Pondicherry

Percentage: 76.8%

LEADERSHIP EXPERIENCE

- | | | |
|---------------------|--------------------------------|-------------|
| • Team size managed | • Sprint planning | • Mentoring |
| • Code reviews | • Production deployments (OKD) | |
| • Problem solving | • Task allocation | |
